## THE GREEKS WANT MORE FIGHTING.

Army in Good Condition-Very Satisfactory Reports Received from Pharsales - Greece Refuses to Appeal to the Powers to End the War.

LONDON, May 4 .- The chief points of Interest in the situation are: First, that the decision of the ministers who have returned from the Greek frontier seems to be in favor of a continuance of the war; and, second, that fighting continued almost incessantly at Valestino from last Thursday until Sunday, with the result that General Smolenski has been prevented from actually assuming his new duties as chief of staff.

As a further result, the Greeks at Valestino have managed to retain their positions, but they are too much fatigued to follow up their success.

Altogether fourteen officers have been recalled from Crete to be sent on to Thessaly, and this also is a proof of the intention of the new cabinet to continue the war. The movement is actuated by necessity. All the best officers are being sent to the front, nor is there any intention yet displayed to evacuate Crete.

It is rumored that many officers have told the Crown Prince Constantine that they will return their swords unless they are led against the Turks. There is a strong feeling at Pharsalos that the troops must advance. The despair over the mistakes of the campaign has been obliterated to a desire night by the Republican sub-committo regain the esteem of Europe. Only 6,000 soldiers are actually posted at until the bill shall get into the Senate Pharsalos. The remainder are distributed in well chosen positions. Discipline improving though organization is still somewhat defective.

The villagers throughout Thessaly have practically descried the Greeks. Turkish Army Advancing.

The Turkish army is advancing in three columns on Pharsalos, while an additional column is operating in the direction of Volo. As the Volo column could easily take Velestino in the rear, the Greek position is very precarious. This probably explains the retention of General Smolenski there, as it was natural to expect him to go to Pharsalos to assume the supreme command. Everything points to an inevitable retreat by the Greeks on Domokos.

The diplomatic situation continues obscure, with a constant interchange of dispatches between European cabfnets and incessant interviewing of ministers

It is said here on good authority that the powers have made cvertures to Greece on the subject of peace. but that the government declines to invoke the mediation of Europe. The king has decided to remain in Athens for the present.

It appears that the Turks asked an armistice in order to bury their dead. the request was referred to the commander-in-chief, from whom no definite reply is forthcoming, but the armistice is tacitly observed. The Greeks speak with emotion of the enemy's gallantry.

The correspondent of the Daily Tel-

"In the battle here yesterday, which continued through the day, 12,000 Turks made repeated assaults on the Greek positions at the railway june-They were finally driven from the field.

The chief feature of the engagement was a brilliant charge of 1,500 Circassian cavalry in order to capture a field battery, which was supported on each flank by strong bodies of Greek in-The Circussians nearly reached the guns, but swept by a flanking musketry fire, they were forced to retreat, the battery shelling the retreating horsemen, with such execution that the wheat fields were covered with the bodies of the men

"The Greek troops have entirely recovered their morale, and their splendid efforts here prove how great an effeet able commanders can produce upon troops. The Greck losses were chiefly due to the infantry fire. Very few of the Turkish shells exploded. The enemy retreated out of sight -toward Larissa during the night.

Inrkey Ready to Quit. In official Turkish circles the opin ion is expressed that the war with Greece will soon terminate. It is pointed out that while Turkey was forced into the war by Greek aggression and the counsels of certain of the powers, she will not gain any advantage by crushing Greece for the bencfit of the Slav element in the Balkans. It is held that the successes attained by the Turkish troops in Greece are all the Turkish government could desire.

In spite of the talk of peace, the preparations for war shows no signs of ceasing. The whole of the landstrum or mustahfuse isecond reserve belonging to the third army corps. stationed in the Salonica district, has been called out.

Annexation or Death.

CANDIA, Island of Crete, May 4 .-The admirals commanding the fleets of the foreign powers in Cretan waters had a conference yesterday with the insurgent leader at Palokastro. The Cretans were promised complete autonomy, including the condition that the nomination of their ruler should be subject to the ratification of the Cretan assembly.

The insurgent leaders, however, cut the discussion short and reiterated that their motto remained "annexation to Greece or death."

Robert W. Hart a Suicide.

KANSAS CITY, Mo., May 1.-Robert W. Hart, one of the best known job printers in Kansas City, killed himself in his office at 123 West Sixth street at 12:35 o'clock to-day. Mr. Hart sent his office boy out to get some chewing tobacco, and while alone in his office he placed a pistol to his head and fired a bullet into his brain. He died instantly. It is supposed that despondency over the death of his wife six months ago caused him to kill himself.

Pittsburg Visited by a Memorable Conflagration.

Pirrishuno, Pa , May 4,-The greatest fire that has visited this city since the memorable one of 1845 started shortly after midnight in the immense wholesale grocery establishment of Thomas C. Jenkins, on Penn avenue and Liberty street, and at 2:30 o'clock was still burning florecly. Three large blocks, extending from Liberty to Penn avenue and from Fifth street to Sixth street, have been reduced to smoldering rains. The loss will be over \$3,0000,000, and is well covered by insurance. Among the buildings destroyed are Jenkins' wholesale grocery establishment, Horne's six story dry goods establishment, Horne's office building, the Duquesne theater and the Methodist Book Concern.

A number of firemen were injured by falling walls and live wires, but none of them are seriously hurt. Fireman George Acheson, who was one of three men in Ceell alley when the Jenkins wall fell is missing, and is suppose I to be under the debris. The names of the firemen burt are Mike Daly, Elmer Crocow, George Meckin, William Erwin and Robert Badger. All were taken to hospitals.

Horne & Co.'s loss, dry goods and office building, with stock, is \$1,600,000. HIGHER TAXES ON BEER.

Republican Senators Favor an Increase

of Fifty Cents Per Barrel. Washington, May 4.—An additional tax of fifty cents a barrel on beer was voted into the Senate tariff bill last tee, but whether the item will stay is not altogether certain.

Senators Aldrich, Allison and Wolcott prepared for an all night session in the hope of getting the measure ready to report to the finance committee, but along toward midnight they declared they could not hope to make a report before to-morrow. Meanwhile they voted upon the beer tax. The present rate of \$1 a barrel and the additional 50 cents will bring the treasury about \$17,000,000 annually on the present rate of consumption. This increase in revenue will not entail a dollar of additional expenses for col-

Made Postmaster at Bethany, Mo.

WASHINGTON, May 4.-General Benjamin M. Prentiss, who to-day was appointed postmaster of Bethany, Mo., has been a familiar figure at all Republican state gatherings in Missouri and is widely known as the "hero o Shiloh." He was offered other and better places so far as salary was concerned, but modestly said he wanted to be only postmaster of his home.

Twenty-Four-Hour Clocks. BRUSSELS, May 4 .- For weeks men have been repainting the faces of the clocks in the railway stations and government buildings throughout the country, and the dials now bear within the old circle of Roman numerals another form of Arabic figures from thirteen to twenty-four. This was ment's decision that all official egraph at Velestino, under date of keeping be done on the 1-to-24 o'clock principle, commencing Saturday mid-night. The innovation is not generally popular.

Sugar Company Goes Under.

MILWAUKEE, Wis., May 4. - The Wisconsin Beet Sugar company, which has just completed a plant at Menomince Falls, and of which great things were expected, is in the hands of an assignee, with a gloomy prospect ahead for the stockholders. The assets of the company consist of the plant, which represents an investment of \$225,000. The liabilities consist of \$60,000 in bonds secured by a first mortgage on the plant and \$29,306 due for labor and material.

Robert H. Hunter is an old veteran of Arlington, in the territory of Oklahoma, who, after 33 years of helpless suffering is now so far rejuvenated that he has taken up a quarter section of land "to grow up with the country," as he says.

In 1863 Mr. Hunter was serving at the front in Co. G., 1st Mo. Cavaley, and winte on a long forced march was 10 days and nights in the saddle during very rainy weather. Be was, shortly after getting into camp, from the exposure he had gone into camp, from the exposure he had gone into camp, from the exposure he had gone through taken with such severe crampings and swelling of the limbs, that it was at first surmised that he had been bitten by a rattler or a copperhead. The regimenta surgeon was not of that opinion, but diag

rattler or a copperhead. The regimental surgeon was not of that opinion, but diagnosed it as a case of saddle crampand acuts rheumatism of a severe type. Here is the old soldier's own story.

"The regimental surgeon informed my captain that I would not be able for some time, if ever, to ride my horse, so I was appointed commissary sergeant of the company, in which capacity I served until September, 1864, when from lack of exercise, owing to my crippied condition, I was taken with chronic diarrhora. Neuralgia, dyspepsia and curvature of the spine scon added their presence to my weight of woe, and at my discharge I was a pretty badly used up man. Of course I was obliged to used up man. Of course I was obliged to undergo medical treatment, and had nuphysicians who attempted to give me relief without success, and as the years rolled on hope grew dimmer until I saw nothing that would assuage my suffering

any distance, and when I came to Oklahoma in 1893, was too ill and weak and helpless to look at the quarter section I had taken up.
"In August, 1893, I read in a newspaper that Dr. Williams Pink Pills for Pale People had cured the effects of la grippe in a great many cases, so I thought it could do me no harm to try them, and I did.
"Before I had finished the first box my cough was cured, and all nulmoners symptoms."

cough was cured, and all pulmonary symp-toms had disappeared, and my general health became better, especially my appe-tite and digestion. My heart, which had been irregular, missing about every third beat, resumed normal action, and my liver and kidneys began once more to do the labors for which they were intended. I con tinued to take the pills, and soon my right arm, which had grown useless, and m arm, which had grown useless, and my hand so nerveless that I could not grasp a pen, became much better, and eventually well. I can now use my right arm, hand and shoulder as well as ever. I can chop wood, and often walk 10 or 20 miles, and can plough a whole day. "Lafe looks altogether different to me;

"Life looks altogether different to me; thanks to Dg Williams' Pink Pills, and with my pension, I hope to be able from my labors to lay up a little money. As I had entirely given up all hope of health, it may be imagined how happy I feel and now changed the world looks. I have offered to pay for Pink Pills for others who cannot afford to buy them, as a debt of gratitude that I can thus partially pay; and I try to let everybody know what the remedy has done for me.

MOUNTAINS OF COLORADO.

Where Are You Going This Summer? Now that summer is here, and warm weather is near at hand, the great number of people who have acquired the habit of spending the "hot spell" in some cooler place than home, are beginning to plan as to where they will go. It has been demonstrated that people living in high altitudes should go to the seashore, and people living in low altitudes should go to the mountains; and "the mountains" has come to mean Colorado, because there is found more in the way of recreation and pleasure than in any other locality. It would fill much space to name the many places which passess attrictions, but any of the many points on the-Denver & Rio Grande railway will be found pleasing to tourists. Trout fishing is probably the most enjoyable sport to be pursued, because it can be had with less trouble, annoyance and expense than any other, but the sportsman who is willing to undertake the extra hardships of going after bear, deer, elk and other wild animals that abound, can satisfy his ambition to the fullest extent. Those who prefer less laborious amusement for the summer, as a visit, at the springs, resorts, etc., can be equally well pleased at the numerous places of the kind. For those who wish to unite business with pleasure, is open the opportunity of prospecting or investing in Colorado mines, and in this direction no place promises such flattering returns. The mining interests, while having already yielded enormous wealth, are only in their infancy, and every day shows the discovery of rich values never before suspected, and it is becoming proverbial that the "tenderfoot" "strikes it" as frequently as the practical miner. The latter looks only for the particular rock that he knows bears fruit. while the former tests everything he finds and often discovers the mineral where the "old timer" has run over it. You will make no mistake in going to Colorado for your summer outing.
